## COMPUTER ENGINEERING

atakan.kosdurma@gmail.com

### EDUCATION

#### Bursa Technical University

Computer Engineering

2018 - 2023(2.85-4.00)

### SKILLS

- Teamwork
- Critical Thinking
- Algorithm Analysis and Design
- Data abstractions
- Object-oriented programming
- Internet applications
- Web Development
- Agile & Scrum
- Debugging

### PROGRAMMING LANGUAGES AND FRAMEWORKS

- Angular
- HTML
- CSS
- Javascript
- Bootstrap
- C#

### ABOUT ME

I graduated from Bursa Technical University in Computer Engineering in 2023. During my internships at Pirahas Yazılım and ASSA Yazılım, I gained hands-on experience in front-end development and back-end development using Angular and ASP.NET, working on live projects like Workouth and data scraping projects for GitLab. Later, at Mercury, I expanded my expertise in Angular, TypeScript, Agile methodologies, and remote teamwork.

Beyond my technical skills, my background as a dancer has enhanced my communication, teamwork, and leadership abilities through international travel and performing with Nilüfer Belediyesi Folk Dance Ensemble. I am eager to grow further in my field through challenging projects and continuous learning. Thank you for your interest.

Regards,  
Bayram Atakan Koşdurma.

### EXPERIENCE

#### FRONT-END DEVELOPER

Mercury Technology - Remote - October 2023 - March 2024

- Worked on a shipment tracking and creation application currently used in the USA.
- Collaborated with developers, QA engineers, and back-end teams to ensure project delivery.
- Improved skills in Angular, TypeScript, CSS, and HTML by developing and maintaining the front end.
- Gained experience in teamwork and cross-functional collaboration within a full-stack team.

#### FRONT-END / BACK-END DEVELOPER - INTERNSHIP

Assa Software & Consultancy - Bursa - October 2022 - January 2023

- Contributed to the development of web and mobile applications using the ASP.NET Zero framework.
- Gained experience in both front-end (Angular) and back-end (C#) development.
- Collaborated with team members to deliver tasks and adapt to a professional work environment.
- Enhanced understanding of full-stack development through hands-on project involvement.

- Python
- Java
- ASP.NET

---

## LANGUAGES

- English *B2 - C1*
- German *A1*
- Italian *A1 - A2*

---

## HOBBIES

- Dance
- Cycling
- Motorsports

## ANGULAR DEVELOPER - SUMMER INTERNSHIP

Codemine Software GmbH. - Bursa - August 2022 / September 2022

- Developed an Angular project to fetch commit data from GitLab based on specific conditions and display it in tables and graphs.
- Successfully completed the project within 10 workdays.
- Assisted in resolving issues on the company's ongoing projects during the remaining 10 days of the internship.
- Gained hands-on experience in problem-solving and front-end development within a professional setting.

---

## FRONT-END DEVELOPER - VOLUNTEER INTERNSHIP

Pirahas Software - Bursa - August 2020 / November 2020

- Began the internship by localizing application texts from Turkish to English to familiarize with the project.
- Transitioned to a Front-End Developer role after the departure of the previous developer.
- Contributed to front-end development tasks, gaining practical experience in a professional environment.

---
